BUILDING YOUR VISIONS

About Global Group

Global Group is one of Pune’s leading developers. We are pioneers in industrial construction. In over 21 years, we have developed more than 10 million sq. ft. of industrial spaces in and around Pune. The rich experience and our resultant expertise have guaranteed our success and timely deliveries in segments as varied as Industrial Parks, Residential, Commercial, Retail, IT Parks, Educational Hubs and more.

Through our work, we have emerged as one of the most reliable and respected names in the industry. With every project, we strive to go beyond our customer’s expectations and to create structures that will stand as city landmarks for years to come.

Proud to have worked with some of the
leading multinational corporations:

Hinjawadi's skyline comes alive with the visionary touch of
Global Group, crafting a luxury living experience.

Hinjawadi:

A glimpse into a promising tomorrow

Hinjawadi, recognized as Pune's IT hub, epitomizes progress and promises a bright future for residents and businesses. It boasts of several educational institutes along with numerous global IT companies, business centres, hospitals, hotels, shopping destinations and a lot more conveniences, which has profoundly uplifted lifestyle at Hinjawadi.

Hinjawadi Phase 2:

Hinjawadi's rapid growth has driven Phase-1 property prices sky-high, with limited land for further development.

This makes Phase-2 of Hinjawadi a highly attractive investment option.

Phase-2 represents a leap forward in development, offering not just larger homes, but a more integrated and enriching living environment.

Advantages of investing in Phase 2

Right time to invest in Hinjawadi phase 2 before it's too late

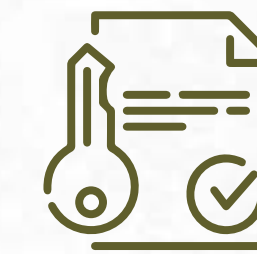

Great
connectivity

Huge investment
potential

Booming
employment hub

Rise in
rental income

Swift advances in
social infrastructure

Alu-Form : The Revolution In Building Construction Technology – Where Speed Meets Reliability

Alu-Form technology is used to produce speedy, accurate and highly consistent casting of all internal and external walls, columns, beams, floor slabs, stairs and other parts of a concrete building.

It is an integrated system which merges the wall and slab panels into a seamless unit. With a drastic reduction of form-jointed sections, the end products have superior resilience to wear, tear and degradation. Alu-Form technology allows internal electrical fittings and plumbing to be incorporated with a high degree of design efficiency, and as part of the overall building plan.

Advantages:

SPEED – Faster construction resulting in quicker completion of the project

QUALITY – Superior concrete finishing and superb dimensional accuracy

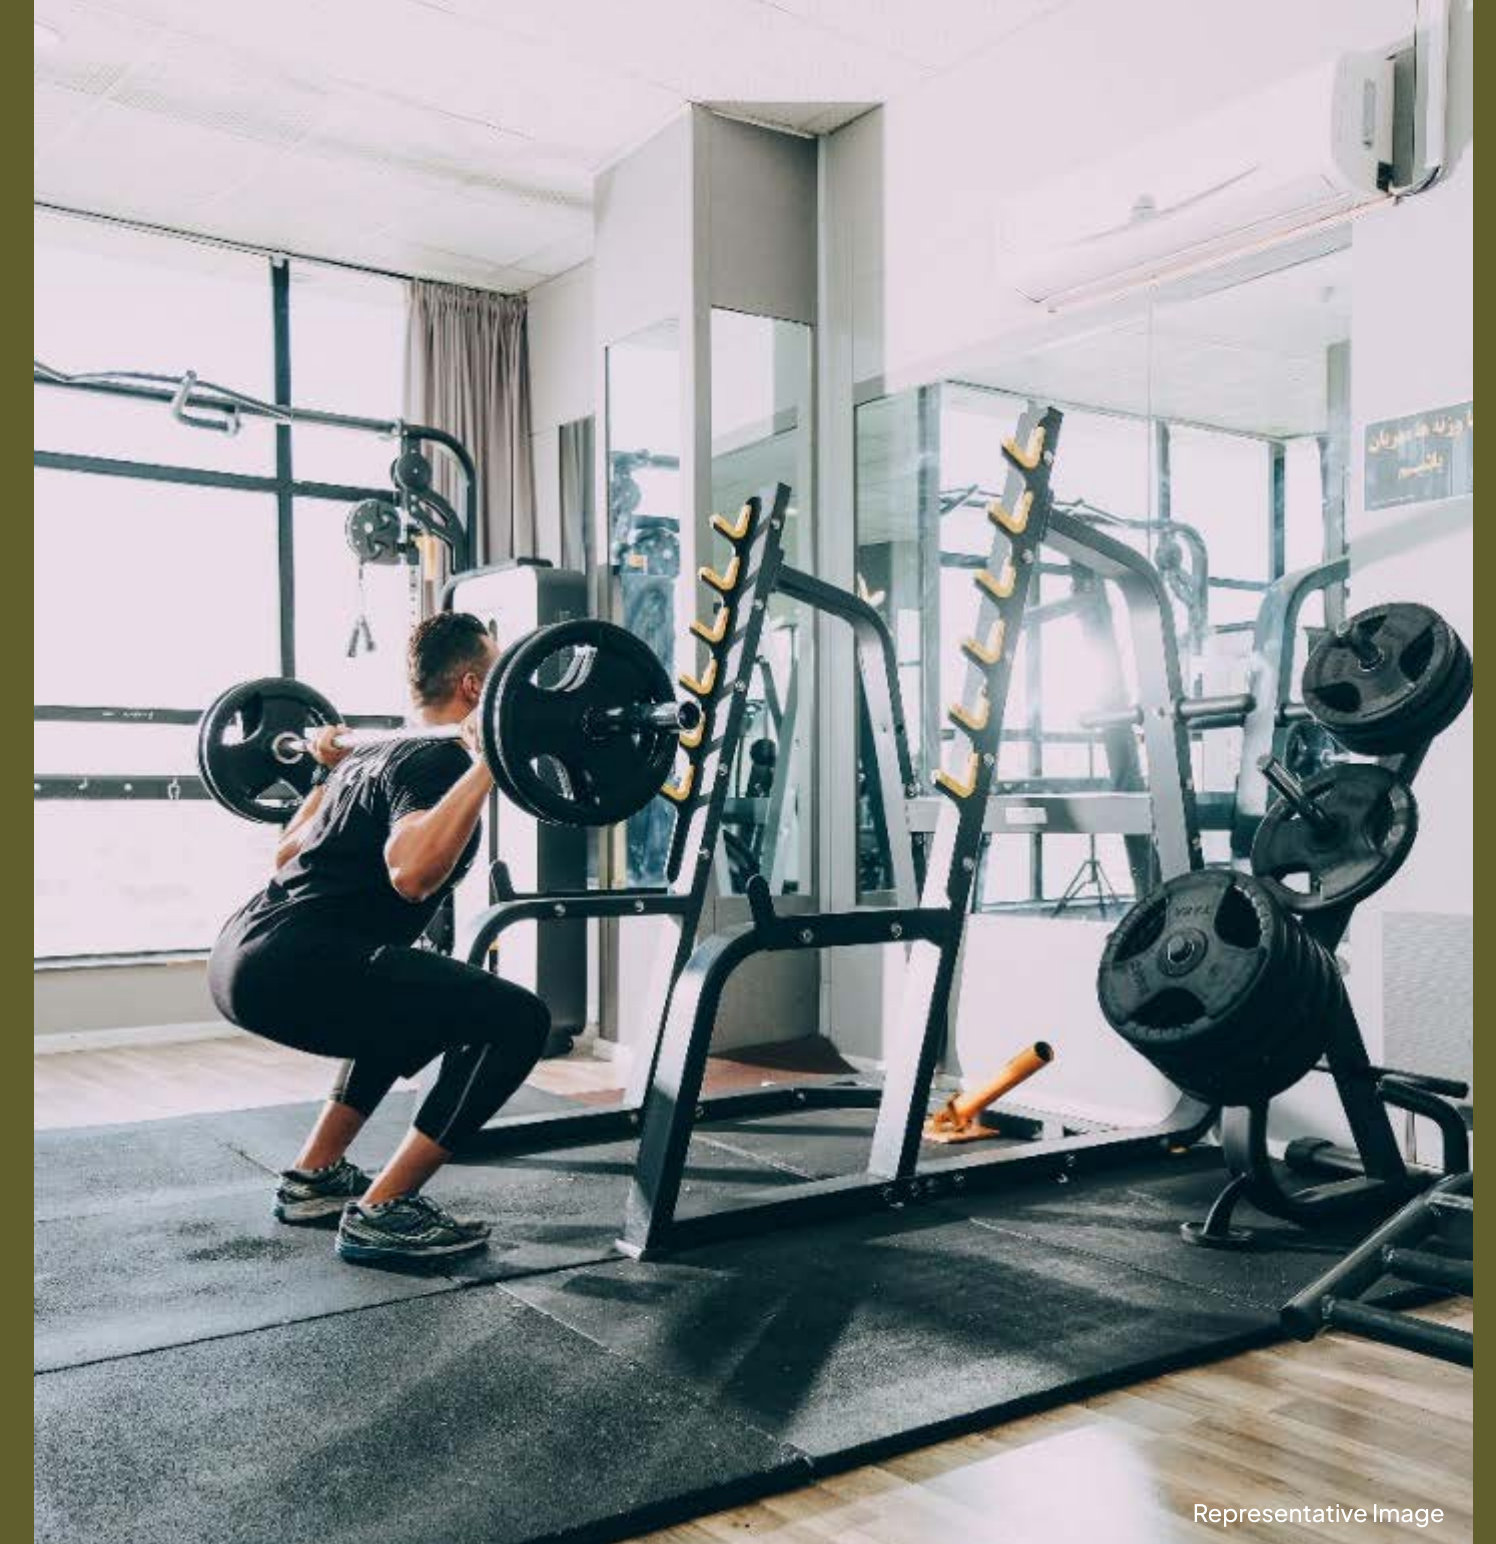

DURABILITY – Reduction in joints results in resilience to wear and tear under different weather conditions

ECO-FRIENDLY – Reusable construction material and lesser debris results in low wastage and effective use of resources in the process.

GREEN TECHNOLOGY – Nullifies the use of wood.

Fitness & Recreation

Yoga/Meditation zone, Swimming Pool, Jogging Track/Path, Table Tennis, Cycle Track, Open Air Gymnasium, Cricket Pitch/Box Cricket, Aqua Gym, Half Basketball Court

Relaxation & Wellness
